Blue jay way - Beatles

```
                   C   Cdim
There's a fog upon L.A.
                                C  Cdim
and my friends have lost their way
                        C   Cdim
we'll be over soon they said
                              C
now they've lost themselves instead.
C
Please don't be long please don't you be very long
please don't be long for I may be asleep.
Well it only goes to show
and I told them where to go
ask a policeman on the street
there's so many there to meet.
Please don't be long please don't you be very long
please don't be long for I may be asleep.
Now it's past my bed I know
and I'd really like to go
soon will be the breath of day
sitting here in Blue Jay Way.
Please don't be long ...
```
