Slow it down - Amy MacDonald

```
Capo on the 2nd fret
Intro:                x2
 C    Em    Am    F

C           Em         Am    F
 I never knew you before
            C                      Em           Am       F
 I've been walking around with my eyes on the floor
                C             Em
 But now you're everywhere to me
               Am          F
 You're every face that I see
               C             Em       Am   F
 Things ain't moving quick enough for me

                   C
I guess I've been running 'round town
Em
Leaving my tracks
Am
Burning out rubber
 F
Driving too fast
     C         Em        Am    F
But I got to slow right down
 C                     Em
Back to the moment the very start
         Am                  F
From the very first day you had my heart
     C         Em        Am     F
But I got to slow right down

Slow it down

C    Em   Am    F
x2

 C                   Em
Wishing, wanting for something more
Am                    F
Always better than I had before
      C         Em              Am     F
Who knew this dream would come true
       C                 Em
And I run the red won't stop at night
Am                F
I don't care for traffic light
             C              Em       Am    F
Things ain't moving quick enough for me

                   C
I guess I've been running 'round town
Em
Leaving my tracks
