How do you do - Roxette

```
1. I see you comb your hair and gimme that grin.
          F         C       F          G
   It's making me spin now, spinnin' within.
              F         C   F       G       F         C
   Before I melt like snow, I say Hello - How do you do!
   F          G
   How do you do?

2. I love the way you undress now. Baby begin.
   Do your caress, honey, my heart's in a mess.
   I love your blue-eyed voice, like Tiny Tim shines thru.
   How do you do!

    F            G   Ami                            Ami/G
R1: Well, here we are crackin' jokes in the corner of our mouths
          Fmaj7                            C
    and I feel like I'm laughing in a dream.
              Ami
    If I was young I could wait outside your school
    Ami/G                                 Fmaj7   G
    cos your face is like the cover of a magazine.

               Es                   B
    How do you do, do you do, the things that you do.
               Es        As       B
    No one I know could ever keep up with you.
               C         As        B                C   As      B
    How do you do! Did it ever make sense to you to say Bye Bye Bye?

3. I see you in that chair with perfect skin.
   Well, how have you been, baby, livin' in sin?
   Hey, I gotta know, did you say Hello - How do you do?

R2: Well, here we are spending time in the louder part of town
    and it feels like everything's surreal.
    When I get old I will wait outside your house
    cos your hands have got the power meant to heal.

    How do you do...
```
