Dynamite tonite - Lordi

She's so cold
Keeps her distance
Icy queen

I've been told
She's so sense
has always been

pre Refrén

She'll need some warmin' up
And I'll bring in the heat

Refrén

My glances burnin' hot
Melt her
Melt her meat

Gimme gimme fuel for my fire
Just a little spark of desire
For her delight
I'll serve dynamite tonight

Who comes out as the winner
When she starts to play the game

After the 2nd half
She will never be the same

pre Refrén

Gimme gimme fuel for my fire
Just a little spark of desire
For her delight
I'll serve dynamite tonight
