# Comming Back To Life - Pink Floyd

```
C                                     F
Where were you when I was burned and broken
          Am              G              F
While the days slipped by from my window watching
C                                       F
Where were you when I was hurt and I was helpless
Am                              G                 F
Because the things you say and the things you do surround me
               Am                  F
While you were hanging yourself on someone else's words
Am                           Bb
Dying to believe in what you heard
Am7                    G                C
I was staring straight into the shining sun

C                   F
Lost in thought and lost in time
          Am                    G                    F
While the seeds of life and the seeds of change were planted
   C                           F
Outside the rain fell dark and slow
        Am               G                          F
While I pondered on this dangerous but irresistible pastime
Am                                  F
I took a heavenly ride through our silence
Am                      Bb
I knew the moment had arrived
    Am7                 G              C
For killing the past and coming back to life

C    C   F   F
Am   G   F   F
C    C   F   F
Am   G   F   F

Am                                 F
I took aheavenly ride through our silence
Am                     Bb
I knew the waiting had begun
Am7                      G                C
And headed straight... Into the shining sun

C    C   F    F
Am   G   F    F
C    C   F    F
Am   G   F    F
Am   F   Am   Bb
Am7  G   C    C
```
