Stars - Roxette

```
Ami                        C
You keep on walking on the other side
G           D
Other side, other side
Ami                        C
You keep on walking on the other side
G           D
Other side, other side

C                    G
Wherever you go, I'm going with you
              F
Shouldn't you know I'm bound to follow?
C                     G
Whatever you say, whatever you do
               F
I give you a clue, I'm gonna follow

           C
R: And the stars will show
             G
   Where the waters flow
             Ami     F
   Where the gardens grow
                Ami       G
   That's where I'll meet you

Why don't you let me let me come along?
Na na na, na na na
Why don't you open, make me come along?
Na na na, na na na

Wherever you go, I'm going for you
Oh, I was truly born to follow
Like fire and wood and paper and glue
Only a few were born to follow

And the stars will show
Where the waters flow
Where the gardens grow
That's where I'll meet you

And the sun will glow
Melting all the snow
Knowing all I know
That's where I'll meet you

Stars will show
Where the waters flow
Where the gardens grow
That's where I'll meet you

And the sun will glow
Melting all the snow
Knowing all I know
That's where I'll meet you

And the stars will show
Every breeze will blow
```

Knowing all I know
That's where I'll meet you

That's where I'll meet you...
