Still Standing - The Rasmus

I wish you here tonight with me,
to see the northern lights
I wish you were here tonight with me.
I wish I could have you by my side tonight,
when the sky is burning.
I wish I could have you by my side.

Cause I've been down and I've been crawling
Won't back down no more

Can't you stop the lies, falling from the skies
Down on me, I'm still standing
Can't you roll the dice, I might be surprised.
Conscience clear, I'm still standing here.

Burns like a thousand stars, though you are light years away
Burns like a thousand stars or more.

You're up there, you're always with me,
smiling down on me.

Can't you stop the lies, falling from the skies
down on me, I'm still standing.
Can't you roll the dice, I might be surprised
conscience clear, I'm still standing here.

It's something sacred, something so beautiful
something quiet to ease my mind
When the pressure's taking me over and over

Cause I've been down and I've been crawling
pushed around and always falling
You're up there, you're always with me
smiling down on me.

Can't you stop the lies, falling from the skies
down on me, I'm still standing.
Can't you roll the dice, I might be surprised
conscience clear, I'm still standing here.
Can't you stop the lies, falling from the skies
down on me, I'm still standing here.
Can't you roll the dice, I might be surprised
conscience clear, I'm still standing here.
