I Have A Dream - ABBA

```
    C             G               C
1.     I have a dream, a song to sing,
                 G             C
    to help me cope with anything.
                    G                 C
    If you see the wonder of a fairy tale,
                      G                    C
    you can take the future, even if you fail.

               G                          F            C
I believe in angels, something good in everything I see,
               G                        F                 C
I believe in angels, when I know the time is right for me,
                G - G7             C
I cross the stream  -  I have a dream.

               G            C
2. I have a dream of fantasy,
                   G          C
    to help me through reality.
                 G                           C
    And my destination makes it worth the while,
                         G                      C
    pushing through the darkness still another mile.
                               G               C
+ Refrain   +  I cross the stream, I have a dream.

3. = 1
                              G               C
+ Refrain  +  I cross the stream, I have a dream.
```
