Push - Avril Lavigne

```
Capo - 3.
1.
C                                      G
Been seein' too much of you lately and you´re starting to get on my nerves
     C                                        G
This is exactly what happened last time and it's not what we deserve
     C                                    G
It's a, a waste of my time lately and I´m running out of words
    C                         D
If it's really meant to be then you can find a way to see

Refren:
G                           D                       Am
Maybe you should just shut up even when it gets tough
                         C
Baby 'cause this is love.
G                                    D                                Am
And you know when push comes to shove it´s gonna take the both of us
                C                          G    C    G
Baby, this is love, baby this is love, love, love, love

2.
 C                                      G
It's really great to be with you this is how I spend my life
     C
But I'm capable of taking care of myself
          G
So if you f--k this up then go take a hike
C                                    G
It's a waste of my time shakin´it up
      C
Goin' out to search if it's really meant to be
D
Then you could find a way to see

Refren:
G                           D                       Am
Maybe you should just shut up even when it gets tough
                         C
Baby 'cause this is love.
G                                    D                                Am
And you know when push comes to shove it´s gonna take the both of us
                C
Baby, this is love, baby this is love

Bridge:
Am      G                      C
You and me we can both start over
                 G                         Am
Just the two of us we can get a little closer
          G       Am                D
So follow me honestly and you will see..yeah

Refren:
G                           D                       Am
Maybe you should just shut up even when it gets tough
                         C
Baby 'cause this is love.
G                                    D                                Am
```

```
And you know when push comes to shove it´s gonna take the both of us
                C
Baby, this is love, baby this is love
Refren:
G                           D                       Am
Maybe you should just shut up even when it gets tough
                         C
Baby 'cause this is love.
G                                    D                               Am
And you know when push comes to shove it´s gonna take the both of us
                C
Baby, this is love, baby this is love
  G   C
Love love love
```
