                     F
This happened once before
                    G7        C
when I came to your door no reply
                    F
they said it wasn't you
                   G7           C
but I saw you peep through your window
          Ami Emi          F  Emi
I saw the light, I saw the light.
                     F
I know that you saw me
                     G7       C
cause I looked up to see your face
               F
I tried to telephone
                       G7            C
they said you were not home that's a lie
                          F
cause I know where you've been
               G7      C
I saw you walk in your door
         Ami Emi        F  Emi
I nearly died, I nearly died.
                          F
Cause you walked hand in hand
             G7        C
with another man in my place
                  E7           A
if I were you I'd realize that I
         Dmi       F         C
love you more than any other guy
                     E7        A
and I'll forgive the lies that I
      Dmi             F            C
heard before when you gave me no reply.
I tried to telephone
they said you were not home that's a lie
cause I know where you've been
I saw you walk in your door
I nearly died, I nearly died.
Cause you walked hand in hand
with another man in my place
     Ami      Emi Ami
