Back To The Cross - Bluegrass Album Band

```
G                              C
I'm out on the sea filled with sorrows
G                          D7
Tossed like a ship to and fro
    G                       C
I'm seeking the help of my Savior
       G          D7           G
By the way of the cross I must go

                          C
Back to the cross and to Jesus
G                       D7
Back to the cross I am called
     G                          C
I've drifted too far and I've wandered
         G           D7          G
From the Savior that once was my own

                               C
The joys of this life are too fleeting
G                          D7
And I'm left in troubles alone
     G                       C
I've lost the touch of His presence
     G           D7       G
I've drifted too far from home

Repeat #2
                                  C
The sins of this world have overcome me
G                            D7
Have pushed and left me to roam
       G                C
So I'm going back to my Savior
G           D7        G
Back to the cross and home

Repeat #2
```
