Sitting Alone In The Moonlight - Bluegrass Album Band

```
G        F#              G
Sitting alone in the moonlight
C               D7        G
Thinking of the days gone by
          F#       G       G7
Wondering about my darling
      C          D7      G
I can still hear her say goodbye

       C               D        G
Oh the moon grows pale as I sit here
             C            D7          G
Each little star seems to whisper and say
     C              D     G
Your sweetheart has found another
    C         D7      G
And now she's far far away

         F#              G
Sitting alone in the moonlight
C               D7        G
Thinking of the days gone by
          F#       G       G7
Wondering about my darling
      C          D7      G
I can still hear her say goodbye

       C               D        G
Oh the moon grows pale as I sit here
             C            D7          G
Each little star seems to whisper and say
     C              D     G
Your sweetheart has found another
    C         D7      G
And now she's far far away
