You're my favourite song - Camprock

Joe Jonas
Words don't come easy without a melody
I'm always thinking In terms of do-re-mi
I should be hiking, swimming laughing with you
Instead I'm all out of tune

But what you don't know
You lift me off the ground
You're inspiration, you helped me find myself
Just like a baseline a half-time
You hold down the groove
That's why I'm counting on you

Chorus
Ami7   D   G   C
And if I heard you on the radio
Ami7   D   G   C
I'd never wanna change a single note
Ami7   D   Hmi   Emi
It's what I tried to say all along
C   D
You're my favorite song

I'm in a session writing tracks
You've got another class to teach
And then rehearsal with a band
You're always one step out of reach
I'm looking for some harmony
With you it comes so naturally
You helped me find the right key

Joe Jonas and Demi Lovato
And when I here you on the radio
I'd never wanna change a single note
It's what I tried to say all along
You're my favorite song

My Favorite Song!

And when I here you on the radio (yeah yea)
I'd never wanna change a single note (no no)
It's what I tried to say all along
Demi Lovato
You're my favorite song
Joe Jonas
You're my favorite song
