Brothers in Arms - Dire Straits

```
Ami                F     G
These mist covered mountains
                  C    G
Are a home now for me
                  Ami   C
But my home is the lowlands
               F    G
And always will be
                 Ami  Emi
Some day you´ll return to
                     F      G
Your valleys and your farms
                    Ami
And you´ll no longer burn
     Dmi              G  Ami  F    G
To be brothers in arms

Ami                       F     G
Through these fields of destruction
           C     Gmi
Baptisms of fire
                     Ami   Emi
I´ve watched all your suffering
                       F    G
As the battle raged higher
                       Ami    Emi
And though they did hurt me so bad
                 F    G
In the fear and alarm
              Ami
You did not desert me
   Dmi             G    Ami    F   G
My brothers in arms

Ami        G              Ami    G
There´s so many different worlds
                  F     G
So many different suns
Ami        G        Ami    G
And we have just one world
                       F      G    F
But we live in different ones

Ami                  F     G
Now the sun´s gone to hell
                     C     Gmi
And the moon´s riding high
                Ami  Emi
Let me bid you farewell
                 F    G
Every man has to die
                      Ami    Emi
But it´s written in the starlight
                     F      G
And every line on your palm
                   Ami
We´re fools to make war
     Dmi               G
On our brothers in arms
```
