1.
    E                  A           E
She labored so hard in this world below
    E                           F#            H7
She didn't have the things that most Mother's know,
E                          E7           A
raising, her children on a widow's small pay.
E                          H7          E     E7
Washing and ironing since Dad passed away.

CHORUS

  A                                        E
I want to go to heaven, when this life is ore,
  E                          F#        H7
I want to be with Jesus On eternity's shore.
       E                                     A
But if I've a crown coming When rewards go around,
E                          H7        E
Please blessed Jesus give Mother my crown.

2.

  E                       A       E
I didn't realize it when I was a lad
     E                   F#        H7
Just how great a burden my Mother had.
 E                         E7          A
Adoption was offered but Mother said no.
    E                              H7           E   E7
She raised us and taught us the right way to go.

CHORUS

  A                                        E
I want to go to heaven, when this life is ore,
  E                          F#        H7
I want to be with Jesus On eternity's shore.
       E                                     A
But if I've a crown coming When rewards go around,
E                          H7        E
Please blessed Jesus give Mother my crown.
E                          H7        E
Please blessed Jesus give Mother my crown.
