All Is Found - - Filmové melodie

Verse 1

```
          Am                    D
Where the north wind meets the sea
            F           C
There's a river full of memory
             Dm              F
Sleep, my darling, safe and sound
              G           Am
For in this river all is found
```

Verse 2

```
       Am                D
In her waters, deep and true
        F             C
Lie the answers and a path for you
          Dm            F
Dive down deep into her sound
            G                Am
But not too far or you'll be drowned
```

Chorus

```
      Am       F                     C
Yes, she will sing to those who'll hear
           Dm               Bb
And in her song, all magic flows
     F                           Em
But can you brave what you most fear?
          D                      F
Can you face what the river knows?
```

Verse 3

```
           Bbm                 Eb
Where the north wind meets the sea
           Gb             Db
There's a mother full of memory
           Ebm              Gb
Come, my darling, homeward bound
            Ab                 Bbm
When all is lost, then all is found
```
