A                          F#m
I've been living with a shadow overhead
A                               F#m
I've been sleeping with a cloud above my bed
Bm                         A  E
I've been lonely for so long
Bm                              A          E
Trapped in the past, I just can't seem to move on

A                           F#m
I've been hiding all my hopes and dreams away
A                         F#m
Just in case I ever need em again someday
Bm                      A     E
I've been setting aside time
Bm                                    A           E
To clear a little space in th corners of my mind
REF
A              F#m            D           A
All I wanna do is find a way back into love
A                    F#m              D           A
I can't make it through without a way back into love
E
oh oh oh

A                                   F#m
I've been watching but the stars refuse to shine
A                                  F#m
I've been searching but I just don't see the signs
Bm                  E
I know that it's out there
Bm                                    A          E
There's got to be something for my soul somewhere

A                         F#m
I've been looking for someone to shed some light
A                                   F#m
Not just somebody just to get me through the night
Bm                  A    E
I cloud use some direction
Bm                  A      E
And I'm open to your suggestions

A              F#m           D             A
All I want to do is find a way back into love
A                  F#m              D             A
I can't make it through without a way back into love
Bm
And if I open my heart again
Bm                              E
I guess I'm hoping you'll be there for me in the end
A, F#m, A, F#m, Bm, A, E, Bm, A, E,

A                          F#m
There are moments when I don't know if it's real
A                         F#m
Or if anybody feels the way I feel
