Mama - Kelly Family

```
Intro: Em Am D G

Em                Am
Why did you have do die
D                           G
When I was only at the age of 5
Em                 Am
So suddenly you've gone
D                           G
And I was left with answers hard to find

Am                                      D
Now I think of you 'cause I'm in hunger for your warmth
G                    Em
That no one can replace
Am                                             D
And I know that where I go You're always by my side
G                        B7
I just want to let you know

Chorus:
Em                Am
Mama oh I miss you sometimes
D                           G  B7
Mama can you hear me when I cry
Em                Am
Mama oh I miss you sometimes
D                           G  B7
Mama can you hear me when I cry for you

Em                Am
Your spirit never dies
D                           G
And all your words I treasure in my heart
Em                     Am
You left me with a smile
D                           G
But my cheeks aren't always dry for tears

Am                                      D
Now I think of you 'cause I'm in hunger for your warmth
G                    Em
That no one can replace
Am                                             D
And I know that where I go You're always by my side
G                        B7
I just want to let you know

Chorus
```
