Not the Nicest Guy - Lordi

Just for spite
Every day, every night
You still wonder, you wonder
From the ashes I rise
by the roll of the dice
You'll go under, go under

You never realized
I'm back here to stay
like a fungus that grows on your side
You never realized I won't go away
Not tonight

I'll never leave you lonely
I'll be there tryin' to grab a hold, yeah
I'm not the nicest guy you know

You'll never leave me darling
Now hear my tender warning
I'm not the nicest guy you know

You'll see me again
In the thunder and rain
I come crawlin' , I come crawlin'
I've got eyes everywhere
From the shadows I stare
At you darling, my darling

I'll never leave you lonely
I'll be there tryin' to grab a hold, yeah
I'm not the nicest guy you know

You'll never leave me darling
Now hear my tender warning
I'm not the nicest guy you know

Got ya ...

I'll never leave you lonely
I'll be there tryin' to grab a hold, yeah
I'm not the nicest guy you know

You'll never leave me darling
Now hear my tender warning
I'm not the nicest guy you know.
