Take a little walk with me - McClatchy, Scott

```
F            C               G         C
Everything's different tough nothing's changed
walking these streets I still feel strange
if you want to see the things that I see
come on and take a little walk with me.
come on and take a little walk with me.

Intermezzo: (po každé sloce)

You turn a corner and you're caught of guard
you thought you were tough, you thought you were hard
You stare at something you'd forgot to see
come on and take a little walk with me.

come on and take a little walk with me.
I show you world you may not belive
where beaty is in the every day you see
come on and take a little walk with me.

I heard the rumor that the mayor of this town
is trying to shut the firehouse down.
He said that it's something that we don't need
come on and take a little walk with me.
come on and take a little walk with me.

You don't see something every day
it doesn't meen it has gone away
to taste, to touch, to hear, to see
come on and take a little walk with me.
come on and take a little walk with me.

come on and take a little walk with me.
I show you your world that you may not belive
where beaty is in the every day you see
come on and take a little walk with me.
come on and take a little walk with me.

come on and take a little walk with me.
come on and take a little walk with me.
come on and take a little walk with me.
