

## Stunned heart - mrqef

C Ami  
1. sitting at the stairs  
Dmi G  
I'm staring at your face  
C Ami  
so beautiful and young  
Dmi G  
tortured, I think I feel love

2. then I'm crying in my bed  
wondering how to change our fate  
Soon we'll be five thousand miles apart  
why did we fall in love just now

Chorus:

hey girl  
Fmaj7 C  
we're like the stars  
Dmi G  
seem so close but yet so far away  
Fmaj7 C  
and just like the stars  
Dmi G  
our love and life one day will fade away  
Fmaj7 C  
and people say  
Dmi G  
that stars are hot, but as you they just can be not  
Fmaj7 C  
and now it hurts like hell  
Fmaj7 C  
cause in few dayys  
G  
you'll be so far away

3. the pain is real  
when your lips are not with me  
If I knew it would be so hard  
cause you stole my whole heart

chorus

Bridge:

F G  
So hold me tight, cause I'm not alright  
F G  
It's not easy, maybe that's what I like  
F G  
still there's a chance, that in another life  
F G  
our love will get, the space to shine  
F G  
but until than, you can count on that  
F G  
you'll always own, little piece of my heart

chorus

... forever so far away
