Photograph - Nickel Back

D#sus2
Look at this photograph
A#
Every time I do it makes me laugh
C#
How did our eyes get so red
G#
And what the hell is on Joey's head
D#sus2
This is where I grew up
A#
I think the present owner fixed it up
C#
I never knew we ever went without
G#
The second floor is hard for sneakin' out
D#sus2
This is where I went to school
A#
Most of the time had better things to do
C#
Criminal record says I broke in twice
G#
I must've done it half a dozen times
D#sus2
I wonder if it's too late
A#
Should I go back and try to graduate
C#
Life's better now than it was back then
G#                              F#         G#
If I was them I wouldn't let me in ooooooh oh god I

Chorus:

D#sus2
Every memory of looking out the back door
         A#
I had my photo album spread out on my bedroom floor
     C#
It's hard to say It's time to say it
G#
Goodbye, Goodbye
D#sus2
Every memory of walking out the front door
            A#
I found the photo of the friend That I was looking for
     C#
It's hard to say It's time to say it
G#
Goodbye, Goodbye

Bridge:

D#sus2
I miss the town
A#
I miss their faces
```

```
F#
You can't erase
G#
You can't replace it
D#sus2
I miss it now
A#
I can't believe it
F#
So hard to stay
G#
Too hard to leave it
D#sus2
If I could relive those days
A#
I know the one thing that would never change
