Off spring - Offspring

Hey now do you see me down the way
Been watching you everyday
In my car on your street is where I stay
I know you better that way
One day I'll be meeting you for real
You'll feel bad like I feel

It'll blow you away-you're gonna fall for me
And the voices told me
To blow you away-you're gonna fall for me

Hey now well I'm knocking on your door
This special delivery is yours
My infatuation it's true
Hello, I got something for you

It'll blow you away-you're gonna fall for me
And the voices told me
To blow you away-you're gonna fall for me
If you hadn't sold me
I'd still be away-you're right in front of me
Then, I'll be on my way
Breathing you okay

Can't break from my sins
Cannot pray

But you can't kill a man when he's got no hope
You can't kill a man when he's got no hope

Can help me

It'll blow you away-you're gonna fall for me
And the voices told me
To blow you away-you're gonna fall for me
If you hadn't sold me
I'd still be away-you're right in front of me
Then, I'll be on my way
You're right in front for me
