

# I don't Speak Human - Omnia

Gmi

Deep within the shadows, I'm the hungry wolf you fear  
But I can see that you're the only evil creature here  
Before you came we lived in peace but you brought us death  
I sing my pain up to the moon but it's a waste of breath

Dmi

Because I don't speak human...  
You can't understand a word I'm saying  
I don't speak human...  
You can't understand a word I'm saying

Upon a wing, a flying thing, to you I seem so small  
But I look down on what you've done, my raven's eye sees all  
You people like a cancer grow, destroying all you see  
and 7 billion mutant monkeys, won't listen to me

Because I don't speak human...  
You can't understand a word I'm saying  
I don't speak human...  
You can't understand a word I'm saying

I won't run this human race, your war is not for me  
I hear the voices from the wild, they thought me how to see  
It's us who are the strangers here and we don't own the land  
My words they fall upon deaf ears, cause no-one understands

Because I don't speak human...  
You can't understand a word I'm saying

I don't speak human...
