Where´s Michael - Prague Conspiracy

```
H            F#            G#m  E
I see your face every morning
H            E           F#
I watch the years passing by
H              D#           G#m    E
Dye your hair yellow dye it violet
E                          F#
Whatever colour you might like
H        D#               G#m E
Still I know what's behind it
H          E                     F#
I know the colour you trying to hide

H            F#               E
Where did it go, where did it go
G#m      F#                   H
Where is Michael where's the show
H            F#               E
Where did it go, where did it go
G#m      F#                   H
Where is Michael where's the show

H            F#            G#m  E
I see your smile faling slowly
H            E           F#
Whenever kids are going around
H              D#           G#m    E
None of them know all your heroes
H          E                     F#
You getting tired of this crowd

H            F#               E
Where did it go, where did it go
G#m      F#                   H
Where is Michael where's the show
H            F#               E
Where did it go, where did it go
G#m      F#                   H
Where is Michael where's the show
H         F#                E
I've seen better days than this one
    G#m     F#          B
And I have seen better times
 F#                        G#m
But I'm still not loosing hope

Solo.
C#m F D#m G#m E Em C#m F# D#m G#m E F#

H            F#               E
Where did it go, where did it go
G#m      F#                   H
Where is Michael where's the show
H            F#               E
Where did it go, where did it go
G#m      F#                   H
Where is Michael where's the show
```

```
H         F#                E
I've seen better days than this one
    G#m     F#          B
And I have seen better times
 F#                        G#m
But I'm still not loosing hope
```
