

Lullaby - Rock

G Am Em D

G
It's the way that you blush when you're nervous
Am
It's your ability to make me earn this.
C
I know that you're tired
Am D G
Just let me sing you to sleep.

Am
G
It's about how you laugh out of pity
Am
'Cause let's be honest, I'm not really that funny
C
I know that you're shy,
Am D G
Just let me sing you to sleep.

Em C
If you need anything,
Am C
Just say the word, I mean anything.
Em C
Rest assured, if you start to doze
Am
Then I'll tuck you in,
C D G
Plant my lips where your necklace is closed.

G Am Em D

G
It's those pills that you don't need to take,
Am
Medicating perfection, now that's a mistake.
C
I know that you're spent,
Am D G
Just let me sing you to sleep.

Am
G
It's your finger, and how I'm wrapped around it
Am
It's your grace, and how it keeps me grounded
C
I know that you're weak,
Am D G
Just let me sing you to sleep.

Em C
If you need anything,
Am C
Just say the word, I mean anything.

Em C
Rest assured, if you start to doze
Am
Then I'll tuck you in,
C D G
Plant my lips where your necklace is closed.

Em
While you were sleeping,
C
I figured out everything:
Em G
I was constructed for you,
D Em
And you were molded for me.

Now I feel your name.
C
Coursin' through my veins.
Em G
You shine so bright, it's insane.
Am Em
You put the sun to shame.

Em C
If you need anything,
Am C
Just say the word, I mean anything. (I really do)
Em C
Rest assured, if you start to doze
Am
Then I'll tuck you in,
C D G
Plant my lips where your necklace is closed.

Em C
If you need anything,
Am C
Just say the word, I mean anything.
Em C
Rest assured, if you start to doze
Am
Then I'll tuck you in,
C D G
Plant my lips where your necklace is closed.
