[Verse 1]

     Dm
In a time
          Am             Dm
Where the sun descends alone,
         F          C        Dm
I ran a long, long way from home
           Am                    G
To find a heart that's made of stone.

[Verse 2]

       Dm
I will try,
        Am             Dm
I just need a little time
             F         C          Dm
To get your face right out of my mind,
            Am                       G
To see the world through different eyes.

[Chorus]

F              Bb             Dm     C
  Every time I see you, oh I try to hide away,
F              Bb              C        F
  But when we meet it seems I can't let go.
F                 Bb
  Every time you leave the room
     Dm       C             Bb       C
  I feel I'm fading like a flower...

[Verse 3]

        Dm
Tell me why
        Am                  Dm
When I scream there's no reply,
        F                C           Dm
When I reach out there's nothing to find,
        Am                     G
When I sleep I break down and cry,
G
Cry, yeah.

[Chorus]

[Bridge]

                Dm C F G
Fading like a rose,

Fading like a rose,

Beaten by the storm,
               A
Talking to myself,
                        A7
Getting washed by the rain,
                         Dm
It's such a cold, cold town.
F                C         Dm
Oh, it's such a cold, cold town.
