Maybe It's Time - SIXX:A.M. -

```
[Intro]
G Am C G Am
Am C G Am

[Verse]
Am                           C
All the scars, all the lines
                              G
On my face they show the times
                            Am
I've abandoned my own life
Am                           C
I can't breathe, I can't eat
                               G
So I just drink myself to sleep
                              F
And embrace this morbid price

[Chorus]
                             C                         G
But maybe it's time to heal, maybe it's time to try
             G#       Am                                F
Maybe it's time to deal with all the pieces in my life
                     C                   G
Maybe I'll sober up, maybe before I die
                       Am                                  F
Maybe I'll finally deal with all the wreckage in my life

[Instrumental]
C F C G
Am C G Am

[Verse]
Am                               C
I'm older now, I'm breaking down
                              G
My regrets they turn to dust
                                   Am
And soon enough they'll blow away
Am                           C
When I was young, I was dumb
                            G
I was never strong enough
                             F
I wish I had the guts to say

[Chorus]
                             C                         G
But maybe it's time to heal, maybe it's time to try
             G#       Am                                F
Maybe it's time to deal with all the pieces in my life
                     C                   G
Maybe I'll sober up, maybe before I die
                       Am                                  F
```

```
Maybe I'll finally deal with all the wreckage in my life

[Verse]
Am                        F
And this was self-inflicted
                        C
Yeah I was on a mission
                         G
To ruin everything in life
Am
But now I'm so damn ready
F
Just take my hand and steady
C                                   G
And we will make it through the night

[Instrumental]
Am C G Am
Am C G F

[Chorus]
                            C                        G
But maybe it's time to heal, maybe it's time to try
             G#       Am                                F
Maybe it's time to deal with all the pieces in my life
                    C                  G
Maybe I'll sober up, maybe before I die
                        Am                                  F
Maybe I'll finally deal with all the wreckage in my life

[Outro]
               C         F
Maybe it's time
               C         G
Maybe it's time
               F C       F
Maybe it's time
```
