Wild wild Angels - Smokie

```
D
Don't talk to me of shattered dreams,
A
Of course you don't know what it means,
G                     A                  D
To live for someone else, you can't just take,
D
And when you're bitten by the truth,
A
You blame it on your mis-spent youth,
G                  A               D
You never seem to learn by your mistakes.

Refren:
G                      A          D
So don't talk to me of wild wild angels,
G         A             D
Wild wild angels on the skyways,
G               A             D                Bm
Those wild wild angels on the highways of your life,
          G            A   D         G
'Cos it's people like you who never knew,
     D         A           G
What wild wild angels have to face.

D
And I ain't hangin' round to see,
A
You turn on someone else like me,
          G              A             D
I'm still alive and you know the way I live,
D
But baby that's one way you'll never be,
A
Such simple things you fail to see,
   G            A                 D
You take back everything you ever give.

Refren:
G                      A          D
So don't talk to me of wild wild angels,
G         A             D
Wild wild angels on the skyways,
G               A             D                Bm
Those wild wild angels on the highways of your life,
          G            A   D         G
'Cos it's people like you who never knew,
     D         A           G
What wild wild angels have to face. 3x
