Sad Eyes - Springsteen, Bruce

```
G    A            D             G
Everyday here you come walking
     A               Bm               G
I hold my tongue, I don't do much talking
     A               D           G
You say you're happy and you're doin' fine
               A           Bm
Well go ahead, baby, I got plenty of time
        G   A          D Bm
Because sad eyes never lie
        G   A          D Bm
Because sad eyes never lie

G          A               D                     G
Well for a while I've been watching you steady
           A                Bm              G
Ain't gonna move 'til you're good and ready
           A               D         G
You show up and then you shy away
           A                     Bm
But I know pretty soon you'll be walkin' this way
        G   A          D Bm
Because sad eyes never lie
G   A          D Bm
Sad eyes never lie
G              A            Bm
Baby don't you know I don't care
             A                G
Don't you know that I've been there
             A                                  Bm
Well if something in the air feels a little unkind

             A         G
Don't worry darling, it'll slip your mind
           A           D              G
I know you think you'd never be mine
             A            Bm          G
Well that's okay, baby, I don't mind
         A              D              G
That shy smile's sweet, that's a fact
A              Bm            G
Go ahead, I don't mind the act
                  A
Here you come all dressed up for a date
        G        A    N.C.
Oh well one more step and it'll be too late
N.C.
Blue blue ribbon in your hair
N.C.
You're so sure I'll be standing here
Bm      G   A          D Bm
I guess sad eyes never lie
        G   A          D Bm
I guess sad eyes never lie
        G   A          D Bm
I guess sad eyes never lie
G   A          D Bm
Sad eyes never lie
```
