Sad Statue - System of a down

```
        Conqest to the lover
      And you love to the fire
  Permanence unfolding in the absolute
  Forgiveness in the ultimate sacrifice
     Eloquence belong to conqueror
The pictures of time and space are rearranged
   In this little peace of typical tragedy
            Justified candy
          Brandy for the nerves
    Eloquence belong to the conqueror
              you and me
     We'll all go down in history
    With a sad statue of a liberty
  And a generation that didn't agree
              You and me
    We'll all go down in history
   With a  sad statue of a liberty
  And a generation that dident agree
             I forgot to
   I forgot to let you know that
            Justified candy
          Brandy for the nerves
    Eloquence belong to the conqueror
        Conqest to the lover
      And you love to the fire
  Permanence unfolding in the absolute
  Forgiveness in the ultimate sacrifice
     Eloquence belong to conqueror
              you and me
     We'll all go down in history
    With a sad statue of a liberty
  And a generation that didn't agree
              You and me
    We'll all go down in history
   With a  sad statue of a liberty
  And a generation that dident agree
              Generation
What is in us that turns a deaf ear to the cries
          of human suffering
       Suffering, suffering now
              you and me
     We'll all go down in history
    With a sad statue of a liberty
  And a generation that didn't agree
              You and me
    We'll all go down in history
   With a  sad statue of a liberty
  And a generation that dident agree
              Generation
               Belongin
             Belongin to
