Bones In The Ocean - The Longest Johns

```
CAPO 1
[Verse 1]
    C                     F            C
Oh, I bid farewell to the port and the land
      Am                     G
And I paddle away from Brave England's white sands
   C                      F         C
To search for my long-ago forgotten friends
   Am                           G           C
To search for the place I hear all sailors end

[Chorus 1]
       F                                       C
As the souls of the dead fill the space of my mind
     Am                            G
I'll search without sleeping 'til peace I can find
  F                       C
I fear not the weather, I fear not the sea
    Am                       G
I remember the fallen... do they think of me?
           F                       G         C
When their bones in the ocean, forever will be

[Verse 2]
       C                           F            C
Plot a course to the night, to a place I once knew
     Am                          G
To a place where my hope died along with my crew
     C                           F            C
So I swallow my grief and face life's final test
        Am                         G         C
T' find promise of peace and the solace of rest

[Chorus 2]
       F                                       C
As the souls of the dead fill the space of my ears
      Am                               G
Their laughter like children, their beckoning cheers
   F                                C
My heart longs to join them, sing songs of the sea
    Am                       G
I remember the fallen... do they think of me?
           F                       G         C
When their bones in the ocean, forever will be

[Verse 3]
        C                         F           C
When at last, before my ghostly shipmates I stand
  Am                        G
I shed a small tear for my home upon land
             C                                   F            C
Though their eyes speak of depths filled with struggle and strife
      Am                          G           C
Their smiles below say I don't owe them my life
```

```
[Chorus 3]
       F                                      C
As the souls of the dead fill the space of my eyes
       Am                  G
And my boat listed over and tried to capsize
    F                           C
I'm this far from drowning, this far from the sea
    Am                      G
I remember the living... do they think of me?
        F                   G            C
When my bones in the ocean, forever will be

[Bridge]
         C                        F        C
Now that I'm staring down at the darkest abyss
        Am                       G
I'm not sure what I want, but I don't think it's this
   C                         F             C
As my comrades call to stand fast and forge on...
       Am                           G            C
I make sail for the dawn until the darkness has gone

[Chorus 4]
       F                                      C
As the souls of the dead live fore'er in my mind
     Am                            G
As I live all the years that they left me behind
     F                             C
I'll stay on the shore but still gaze at the sea
    Am                     G
I remember the fallen and they think of me
        F                    G             C
For our souls in the ocean, together will be

[Ending]
    Am                     G
I remember the fallen and they think of me...
        F                    G             C
For our souls in the ocean, together will be
