A
I had a dream
 E
about a gorgeous girl
 F#mi
sha came from different world
D A
she came from the Venus

She was tall
with a pale white skin
And in my dream
i Called her Venus

She said hello
She looked a little scared
coz I was from the Earth
I said Hello Venus

She took my hand
she looks up on the stars
I've never been so far
where I was with Venus

Ref 1:

F# D H7
Don't stop now fly across the ocean
F# D H7
Don't stop now show me some emotions
F# F A
DOn't stop now my girl from the venus
(akordy k ref)
Take me everywhere you want me
Lead me to places you promised me
Take me to the Venus

and after while
I was flying high
flying in the sky
alone with a venus

Suddenly
she said to me goodbye
she droped me from the sky
and disappeared, my Venus

Wind was cold
when I was falling down
I felt like stupid clown
who was caughted by Venus

And I knew

That I'm going to die
I wanted to cry
and I cursed my Venus

Ref 2 (akordy jiné než v ref1)

F# F
Where are you? I want to spit in your face
F# F
I want to show you power of human race
F# F A
Where are you? Little bitch from the Venus
Where are you? I want to hit you!
Where are you? I want to kill you!!
Where are you? Little bitch from the Venus

I woke up
lying in my bed
And beside my head
she was lying dead

I'm in jail
waiting old-age
Now I'm full of rage
for a girl from the Venus
