Kite - U2

```
E            A        E        A
Something is about to give
             E            A
I can feel it coming
                       E      A
I think I know what it is
                  E      A
I'm not afraid to die
                  E      A
I'm not afraid to live
                  E      A
and when I'm flat on my back
                     E       A
I hope to feel like I did

      C#m
'Cause hardness, it sets in
             A
You need some protection

The thinner the skin

Pre-Chorus

E                B
I want you to know
         A
That you don't need me anymore
E                B
I want you to know
C#m                                  B
You don't need anyone, anything at all

Chorus

E
Who's to say where the wind will take you
B
Who's to say what it is will break you
A
I don't know which way the wind will blow
E
Who's to know when the time has come around
B
Don't wanna see you cry
A
I know that this is not goodbye

E A E A E A (w/riff1)

E                         A
In summer I can taste the salt in the sea
E                         A
There's a kite blowing out of control on a breeze
```

```
E                          A
I wonder what's gonna happen to you
E                          A
You wonder what has happened to me

E          B            A
I'm a man, I'm not a child
E            B
A man who sees
A
The shadow behind your eyes

Chorus

E
Who's to say where the wind will take you
B
Who's to say what it is will break you
A
I don't know where the wind will blow
E
Who's to know when the time has come around
B
Don't wanna see you cry
A
I know that this is not goodbye

Outro (E-A)

          E      A
Did I waste it?
                       E             A
Not so much I couldn't taste it
               E        A
Life should be fragrant
                E        A
Roof top to the baseman
                E        A
The last of the rock stars
                        E        A
When hip hop drove the big cars
                      E        A
In the time when new media
              E   A
Was the big idea
                E     A
That was the big idea

E A E A  E
```
