1. I want tonight your body and soul, tonight.
   I want to reach what I never thought, but tonight.
   You think about me?
   I deeply hope so, yes, I do.
   I want to reach...when the stars fall blue night, very (...?).

R: Recently you sing with me an Even fool,
   Evensong very strong touching my heart.
   No more light will you see
   I´m worried that every think
   every think you will forget.

2. Ju má tak rád a sníva len. Čo s tým?
   Môj kamarát trápi sa. Myslím...
   A orgován vôňou zakryje jazvy rán.
   Sám život chcel lásku pochovať.
   Pochovať lásku...Good bye!
